## **Description:**

Are your homeschooling a Minecraft player? Make Minecraft educational!

Cover every required subject while having fun with Minecraft!

Best for ages 9 to 14.

Over 400 Pages of Educational Activities for Independent Students! Perfect for gifted students, as well as students with learning challenges such as Dyslexia, ADHD & Autism.

You can cover every required subject while giving your child freedom to be creative! This Do-It-Yourself Curriculum can provide 2 to 4 hours of homeschooling instruction each day!

Are you homeschooling a gifted child who is easily distracted when using curriculum that is not interesting? Are you working with a student who has symptoms of Dyslexia, ADHD, Asperger's Syndrome or Autism? This is the perfect homeschooling method for kids who don't sit still, unless they are playing Minecraft!

Don't worry, your child will not be on the computer all day, 30 to 45 minutes will be just about perfect, when working in this curriculum journal. We also use the Dyslexie Font to make reading and learning easy for students with dyslexia.

If your child can read and write on a second grade level they will be able to use this book as their primary curriculum.

What ages? This curriculum is geared towards ages 9 to 12, but older and younger children can still use and enjoy the curriculum, by supplementing the program with library books, audio books, and documentaries on their level.

Over 400 Pages of Homeschooling Activities!
