Description:

NO SOURCE IS LEFT UNTAPPED IN THIS ALL-ENCOMPASSING GUIDE TO SUPPLYING LIFE-SAVING WATER AFTER A DISASTER

You can survive up to three weeks without food, but only three days without water! When catastrophe strikes, having enough water can spell the difference between life and death. *The Prepper's Water Survival Guide* offers a step-by-step plan with straightforward information you can easily follow. Thanks to this book's laser-focus on water, you'll quickly learn how to:

- **Store fresh water**
- **Collect rainwater**
- **Purify water from lakes & rivers**
- **Dig a well for groundwater**

In addition to harvesting water, you'll gain the tools to keep large stores untainted for long periods of time, test the water you collect for dangerous toxins, and treat water-related illnesses that are commonly contracted during a disaster.
