Description:

From Library Journal A tie-in for a nine-part television series to be broadcast over PBS beginning in September, this is a wide-ranging account of the travels and changes of the English tongue from its beginnings to tomorrow, from England to America to Australia to Africa and India and the Pacific. Despite an occasionally perceptible British bias, the authors have tried hard to paint a colorful, vivid picture of the many faces and varieties of English. The text is never dull, but is enlivened by innumerable examples and by interviews with representative individuals: a minister in Scotland, a couple from the Appalachians, a storekeeper in Newfoundland, a Philadelphia shoeshine man, a cockney fruitseller, an Australian farm family, the president of Sierra Leone, a writing professor in

India. A readable book that all public libraries should have. BOMC alternate. Catherine V. von Schon, SUNY, Stony Brook
